**CONFIRMATION OF SUPPORT**

Lilongwe University of Agriculture and Natural Resources (**LUANAR**) at Bunda College Campus through the Department of Food Science and Technology (**FST**) is pleased to announce that it is partnering with **NutriCare** through Mr. Ken Gunsalu. Through this partnership, the department among other things will be providing technical expertise in all areas pertaining to food processing in general.

The Department of Food Science and Technology is excited with this partnership and is committed to support **NutriCare's** projects because it is within its mandate to provide outreach activities to various stakeholders through various ways such as demand driven research.

Furthermore, the Department of Food Science and Technology welcomes this gesture to be part of this sustainable project that has the potential to give back to the community many benefits such as provision of nutritious foods using locally available resources, increase food security and improve livelihoods of local Malawians.

As we confirm this support, the Department believes that this is the beginning of many opportunities to come as we all strive to improve the wellbeing of poor resource disadvantaged communities. Should there be need for more information or clarifications on confirmation of this support, I can be contacted using the following email addresses: [kmasamba@luanar.ac.mw](mailto:kmasamba@luanar.ac.mw), kgmasamba@gmail.com

Yours sincerely,

A handwritten signature in black ink, appearing to read 'K. Masamba', with a large, stylized circular flourish at the end.

K.G. Masamba, PhD

**Associate Professor, Food Science and Technology and Head of Department**
